

Dear Parents,

My name is Jane Engler and I look forward to being your child's teacher this year. Every year is so special because it is a privilege to spend so much time with your child. Since we are going to be spending so much time together, I would like to take the opportunity to tell you a little bit about myself.

I have been teaching for thirteen years in both public and private schools. I attended San Diego State University for my BA and Loyola Marymount University for my MA in Education. I am also 90% of the way complete in earning my MS in Academic Administration through National University.

I am blessed to have a wonderful family. My husband, Dan, is a captain with the city of El Segundo's fire department. We also have a daughter, Lydia, who is eleven and a son, Luke, who is nine years old. We live in Westchester and are blessed to have family nearby. Westchester Lutheran however is also a part of my family. I have been working in the school for over twenty years now, but in different capacities. I attended WLS from preschool to eighth grade and I am an active member of the church as well. It is such a blessing to work in a school with people who are like family.

This year ought to be an exciting and productive year! I look forward to making your child a part of the WLS first grade family and to getting to know the parents as well. Please let me know if you have any questions about the school year at any time. I can be reached at jengler@wlcs.org or visit the classroom website through wlcs.org.

Sincerely,

Jane Engler
